WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION
Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING
Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.
If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Dreamcast.
In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.
To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:
• Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
• Do not play if you are tired or have not had much sleep.
• Make sure that the room in which you are playing has all the lights on and is well lit.
• Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS
To prevent personal injury, property damage or malfunction:
• Before removing disc, be sure it has stopped spinning.
• The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.
• Do not allow fingerprints or dirt on either side of the disc.
• Avoid bending the disc. Do not touch, smudge or scratch its surface.
• Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
• Do not write on or apply anything to either side of the disc.
• Store the disc in its original case and do not expose it to high temperature and humidity.
• Do not leave the disc in direct sunlight or near a radiator or other source of heat.
• Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING
Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

SEGA DREAMCAST VIDEO GAME USE
This GD-ROM can only be used with the Sega Dreamcast video game system. Do not attempt to play this GD-ROM on any other CD player; doing so may damage the headphones and/or speakers. This game is licensed for home play on the Sega Dreamcast video game system only. Unauthorized copying, reproduction, rental, public performance of this game is a violation of applicable laws. The characters and events portrayed in this game are purely fictional. Any similarity to other persons, living or dead, is purely coincidental.
Thank you for purchasing Flag to Flag™. Please note that this software is designed only for use with the Dreamcast console. Be sure to read this instruction manual before you start playing.

Flag to Flag™ is a memory card compatible game. In order to save game files, a separately sold memory card such as the Visual Memory Unit (VMU) is required. The number of memory blocks required to save game files varies according to the content of the files to be saved. With this game, 12 blocks are required to save system related settings, maintain data records and for the Championship mode. For replaying saved race files, between 7 and 140 blocks are required. When saving or loading game files, never turn the Dreamcast power OFF or remove the memory card unit, controller or other peripheral devices.
CART symbolizes the pinnacle of American motor sport. CART (Championship Auto Racing Teams) is the name of the organization that officially sponsors the series, currently called the “FedEx Championship Series”. The majority of races in the 1998 season (19 rounds) were held in America and Canada, with other races being held in Australia, Japan and Brazil. Champ cars, comprised of a 800 Horsepower engine encased in a large heavy chassis, can reach speeds of approximately 250 m.p.h., and engage in a furious high-speed sprint for victory.

CART RACING CHARACTERISTICS

NO 1: THE COURSES
The first characteristic of CART is the variety of courses involved. In addition to oval circuits, road circuits (closed circuit) and street circuits (public roads) are also used.

NO 2: THE START
CART makes use of a rolling start. The cars drive around the course in formation. When the green flag is waved the head car (known as the pace car) exits the track, each car accelerates and the race begins. When an accident occurs “Full Course Caution” is employed, whereby the cars engage in another rolling start. Because of this, it is possible to enjoy the thrill of the starting battle again and again in a single race.
### CHAMP CAR

#### ENGINE
- Maximum of 8 cylinders
- 2650cc Turbo
- 800 Horsepower

#### FUEL
- Methanol

#### TRANSMISSION
- Manual
  (It is possible to use automatic transmission in the game)

#### CHASSIS
- Wingtype
- Readymade chassis
  - Composition: aluminum honeycomb + carbon
CONTROLS

The settings for the Dreamcast Controller and the Race Controller depicted below are for the default button settings. To change the button configurations, select "CONTROLLER SETTINGS..." from the option menu (see p.17).

DREAMCAST CONTROLLER

- **ANALOG THUMB PAD**
  - Steering/Select Items

- **DIRECTIONAL PAD (D-PAD)**
  - Select Items

- **START BUTTON**
  - Pause Menu

- **X BUTTON**
  - Shift Down

- **Y BUTTON**
  - Change Viewpoint

- **B BUTTON**
  - Reverse/Cancel

- **A BUTTON**
  - Shift Up/Enter Selection

- **TRIGGER R**
  - Accelerator

- **TRIGGER L**
  - Brake

⚠️ The car will reverse while the B Button is pressed and held down.

⚠️ This manual refers to the D-Pad when giving instructions for selecting, it is also possible to use the Analog Thumb Pad.
To return to the title screen at any point during game play, simultaneously press and hold the A, B, X, Y and Start Buttons on the Dreamcast Controller or the A, B and Start Buttons on the Race Controller.

**RACE CONTROLLER** (sold separately)

- **STEERING WHEEL**
  - Steering/Select Items (←→)
- **- BUTTON**
  - Shift Down
  - Select Items (▼)
- **B BUTTON**
  - Change Viewpoint/
  - Cancel
- **+ BUTTON**
  - Shift Up/
  - Select Items (△)
- **A BUTTON**
  - Reverse/
  - Enter Selection
- **START BUTTON**
  - Pause Menu
- **LEVER R**
  - Accelerator
- **LEVER L**
  - Brake

△ Never touch the Analog Thumb Pad, Triggers L/R, Steering Wheel, or Levers L/R while turning the Dreamcast power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.
STARTING UP

Flag to Flag™ is a 1 to 2 player game. Connect a Dreamcast Controller into Control Port A or B before turning the power ON. When using a memory card insert it into Expansion Socket 1 of the controller connected to Control Port A. Expansion Socket 2 cannot be used with this software.

MODE SELECTION MENU

When using a memory card, press the Start Button to display the load menu once the title screen appears. To load data from the connected memory card, select “YES” and press the A Button. Use the D-Pad ↑↓ to select a mode from the mode selection menu and press the A Button to enter.

ARCADE

Select a course and race. 1 to 2 Players can participate. See p.8.

CHAMPIONSHIP

Compete in one season (19 rounds) of races. Competition is based on the accumulation of points from each round. See p.11.

OPTION

Modify the various game settings. See p.17.

REPLAY

View saved replays of your races. See p.18.
The basic race screen is described below. Depending on the mode or viewpoint, small variations may occur.

By pressing the Y Button, you can alternate between 5 different camera viewpoints.

1. **Current Number of Laps Raced**
2. **Total Number of Laps to Be Raced**
3. **Total Time**
4. **Best Lap**
5. **Time Record**
6. **Course Record**
7. **Fastest Lap**
8. **Fastest Lap**
9. **Course Map**
10. **Course Map**
11. **Current Gear**
MODE EXPLANATIONS

**ARCADE**
Select a course and race. This mode can be enjoyed by 1 to 2 Players via a split screen. Car settings cannot be adjusted in this mode.

**SELECT GAME MODE**
Use the D-Pad $\leftarrow \rightarrow$ to select either the 1 Player or 2 Player mode and press the A Button to enter.

1 PLAYER MODE: 1 Player game
V.S. MODE: 2 Player mode via a split screen

**SELECT DRIVER**
Select a driver. The type of car used depends on the driver selected. Use the D-Pad $\leftarrow \rightarrow$ to select and press the A Button to enter.

**V.S. MODE**
In this mode Player 1 selects a driver and transmission first, then Player 2 selects.
TRANSMISSION
Use the D-Pad ⬅️ to select either automatic or manual transmission and press the A Button to enter.
   AT: Automatic transmission
   MT: 6-speed manual transmission (it will be necessary to shift gears)

SELECT COURSE
Use the D-Pad ⬅️ to select a course and press the A Button to enter. The race will begin once the course has been selected. The number of laps vary depending on the course.

PAUSE MENU
Press the Start Button during game play to display the pause menu. Use the D-Pad ⬆️ to select an item and press the A Button to enter.
   RESUME: Continue the race
   END RACE: Quit the race
NAME ENTRY

If the player is able to complete the race with a total or lap time that is within the current rankings, the player will be asked to enter their name (up to 3 letters). Use the D-Pad to select a letter and press the A Button to enter. A letter can be cancelled by pressing the B Button, or by selecting “BACK”.

REPLAY

After the race is complete it is possible to view and/or save a replay. Use the D-Pad to select an item and press the A Button to enter.

While viewing a replay it is possible to change the camera target to another car by pressing the Y Button. Press the Start Button during the replay to display the replay menu.

**REPLAY:** View the race replay
**CONTINUE:** Race the course again, without making any set-up changes via the option menu
**SAVE:** Once the confirmation window appears select “YES” to save a replay to the memory card
**EXIT:** Returns the user to the select game mode screen

- **REPLAY FILE**

Replay file: data can only be saved if the memory card has been inserted into Expansion Socket 1 of the controller. This game requires between 7 - 140 blocks of memory to save game files, depending on the number of replay files. Replays from the V.S. mode cannot be saved.
Race for an entire season of 19 rounds. The rounds progress in the same order as they did for the 1998 Championship series. Competition is based on the accumulation of points from each round. Aim to be the Champion!

CONTINUE/DIFFICULTY SELECTION

Use the D-Pad to select whether to start a new race or to continue a previous series and press the Button to enter.

When you have selected “NEW GAME”, before pressing the Button to enter, use the D-Pad to select one of three difficulty levels.

NEW GAME: Start from round one of the Championship
CONTINUE: Start from the round at which the game was last saved

SELECT DRIVER

Select a driver. The type of car used depends on the driver selected.

Use the D-Pad to select a driver and press the Button to enter.

NAME ENTRY

Enter your name. Use the D-Pad to select a letter and press the Button to enter. A letter can be cancelled by pressing the Button or by selecting “” (back arrow).
MAIN MENU

The race will start after practice, adjustment of car settings etc, is complete. Use the D-Pad ↑↓ to select an item and press the A Button to enter.

- **PRACTICE**
  Practice racing the course (can only be selected before qualifying).

- **CAR SETTING**
  Customize your car.

- **OPTION**
  Modify settings of the Championship mode.

- **SAVE**
  Save the progress of your race to a game file.

- **LOAD**
  Load a game file and resume play from the round last saved.

- **QUALIFY START**
  Determines your place on the grid by the speed of your laptime in qualification.

- **RACE START**
  Start the race.

▲ Before qualifying

▲ Before the race

PRACTICE

Practice racing the course. Press the Start Button while practicing to display the pause menu. Use the D-Pad ↑↓ to select an item and press the A Button to enter.

- **RESUME:**
  Re-starts the practice

- **END PRACTICE:**
  Quit the practice and return to the main menu
CAR SETTING

Adjust the car settings. Use the D-Pad ↑↓ to select an item and press the A Button to enter. For each setting, use the D-Pad ⇔ to modify settings and press the A Button to enter.

- **Compound**
  Change the tire type. Soft: gives good grip but needs to be changed quickly. Hard: the opposite of soft. Rain: used in rainy conditions. [Soft, Hard, Rain]

- **Aerodynamics**
  Adjust the angle of the front and rear wing. The lower the angle, the lower the downforce. [1-30 degrees]

- **Fuel**
  Set the amount of fuel to be loaded into the car. The greater the amount of fuel, the longer you can race without a pitstop. However this will have a negative effect on acceleration. [2-40 gallons]

- **Suspension**
  Adjust car suspension. Making the suspension harder (increasing the number value) will make the car less responsive but decrease the amount of wear on the tires. [1000-5000ppi]

- **Gear Ratio**
  Adjust the gear ratio. Use the D-Pad ↑↓ select a gear and ⇔ to adjust the ratio. [Adjustment depends on the gear]

- **Transmission**
  Select either automatic or manual six-speed. [AT/MT]

- **Report**
  Displays a list of the car settings. Press the B Button to return to the main menu.

- **Default Setting**
  Select “YES” to return all settings to their original defaults.
OPTION

Adjust the settings of the Championship mode. Use the D-Pad ▲▼ to select an item and ◀▶ to modify the settings. Press the B Button to return to the main menu.

■ WEATHER
Adjust the weather conditions. Clear, Cloudy, Rainy, Actual (the actual weather conditions of the 1998 season) and Random. Rain does not appear on oval courses.

■ RACE LENGTH
Adjust the number of laps of the race (number of laps in the actual race is shown as 100%). For example, if the number of laps is adjusted to 10% the number of laps raced will be 10% of the actual number of laps. [5-100%]

■ DAMAGE
Select how much damage the car can take before breaking down. None: the car will not be affected by damage. Real: the car will break down after a little damage. Arcade: the car will break down only after a lot of damage. [None/Real/Arcade]

■ CORNER SIGN
Select whether or not to display corner signs indicating the direction of the next corner. [On/Off]

■ FULL COURSE CAUTION
Enable or disable "Full Course Caution" (if turned on the race will be re-started after an accident). [Yes/No]

SAVE/LOAD
Select to save or load the progress of your game. Once the confirmation window appears select "YES" and press the A Button to either save or load a game file.
QUALIFICATION

Race against the clock. Your fastest lap from the two lap qualification race will be used to determine your position on the starting grid.

- PAUSE MENU

Press the Start Button while driving to display the pause menu. Use the D-Pad ↑↓ to select an item and press the A Button to enter.

  RESUME: Resume the qualification race

  END QUALIFY: Quit the qualification race

△ Quitting the qualifying race will result in the player’s car starting from the back of the starting grid.

- REPLAY MENU

After qualification is complete the player will be given the option to watch a replay of the race. Use the D-Pad ↑↓ to select an item and press the A Button to enter.

  Replay: View a replay of the race

  SAVE: Save the replay to the memory card

  EXIT: Exit the menu
RACE START

Begin the race.
First, the starting grid position as determined by the player’s performance in the qualifying race is displayed. Following this, the race will begin via a rolling start.

- PIT STOP

If the “Full Course Caution” option is switched off and front wing/rear wing damage, tire wear or excessive fuel consumption occurs, an icon instructing the driver to make a pit stop will appear at the bottom left of the screen. Failure to do so will hinder your progress and may result in retirement.

- PAUSE MENU

Press the Start Button at any time during the race to display the pause menu. Use the D-Pad ↑↓ to select an item and press the A Button to enter.

  RESUME: Continue the race
  RETIRE: Quit the race

RACE END

Once the race is complete, select whether or not to save. Select “YES” or “NO” and press the A Button to enter. Select “NEXT COURSE” from the next menu to go to the next race or “EXIT” to quit Championship mode.
Adjust the game settings.

Use the D-Pad ↑↓ to select an item, ←→ to modify the setting then press the A Button to enter. Press the B Button to return to the title screen.

- **CONTROLLER SETTING...**
  Reassigns button settings. Use the D-Pad ↑↓ to select a setting and press the A Button to enter.

- **SAVE**
  Select “YES” from the confirmation window and press the A Button to save game data.

- **LOAD**
  Select “YES” from the confirmation window and press the A Button to load game data.

- **SOUND**
  Select either stereo or mono sound for the sound setting.

- **BGM VOLUME**
  Adjust the volume of the background music.

- **SE VOLUME**
  Adjust the volume of the sound effects.

- **RECORD...**
  View the laptimes and course records of Arcade mode. Use the D-Pad ←→ to select a course and view its records.

- **MUSIC MODE...**
  Listen to the game’s background music. Use the D-Pad ←→ to select a track. To exit music mode press the B Button.

- **SPEED UNIT**
  Select to display speed in either “Metric” (km/h) or “English” (mph) units.
View a replay of the race.
Use the D-Pad ↑↓ to select a file and press the A Button to enter. Select "EXIT" to return to the title screen.

- LOAD
  Load replay files for viewing. Use the D-Pad ↑↓ to select a file and press the A Button to enter.

- DELETE
  Delete saved files. Use the D-Pad ↑↓ to select a file and press the A Button to enter.

- TITLE EDIT
  Edit file names. Use the D-Pad ↑↓ to select a file and press the A Button to enter.

**DURING REPLAY**
Press the Y Button while viewing a replay to change the camera's target to another car.
COURSE INTRODUCTION

CART is held on a variety of courses, the three main types being oval, road (closed circuit) and street (normal public roads).

In order to win a race it is necessary for the player to be familiar with the layout of the course to maximize speed. The player must learn the characteristics of each course - his way around the course and how to change the car settings to get the most from his car to achieve victory.

Round 1
1.5 Miles/Oval

The Miami Homestead raised the curtain on the 1998 season. This oval course is 1.5 miles long, with corner banks of 6 degrees.
Round 2
1.549 Miles/Oval

The only Championship series course in Japan – “Twin Ring Motegi”. This course can either be used as a road course or oval course – in CART it is naturally used as an oval course.

Round 3
1.586 Miles/Street

This course uses roads in the city area of Long Beach in southeast Los Angeles. The straights, 90-degree corners, fast corners and tight hairpin bends make this a course where anything can happen.
Round 4
1.0 Mile/Oval

This short 1-mile course is an oval course with a difference – it has 3 corners. The trick of this track is whether the driver can successfully negotiate the slope from the 2nd corner to the 3rd corner.

Nazareth

Round 5
1.864 Miles/Oval

Interesting because of its trapezoid shape, this is classed as an oval course. In terms of car settings however, due to the tight turns and heavy braking involved, it is better to treat this as a road course.

Rio de Janeiro
Round 6
1.27 Miles/Oval

Gateway Int'l

This is a new course used in the Championship series since 1997. It is an egg-shaped course with one large and one small corner.

Round 7
1.032 Miles/Oval

Milwaukee Mile

This mile long course was used in the first race in 1933 and is thus very historical. This course has also been used as a racetrack for horses.
Round 8
2.1 Miles/Street

Detroit

A park on the sandbar of the Detroit River bordering Canada is used as the location for this course – famous for its variety of corners.

Round 9
1.96 Miles/Road

Portland

The first road course in the Championship series. This course is very flat, featuring both complex cornering and straights where the driver can travel at high speed. The chicane on the home straight is the trickiest part of this course.
Round 10
2.106 Miles/Airport

Burke Lakeford Airport next to Lake Erie, Cleveland, is the location for this course, which also operates as a runway. The track's surface is uneven. But because it is a runway, it is quite wide.

Round 11
1.721 Miles/Street

Positioned on the side of Lake Ontario in Toronto, this street course runs through Exhibition Place – a trade fair site. The course features concrete walls, 90-degree corners and fast corners which make for a challenging street course.
Round 12
2.0 Miles/Oval

This is a prominent and fast oval course. In terms of banking, both corners are 18 degrees, and the curving straightaway in front of the stand is 11 degrees, ensuring that cars can reach speeds of over 230 mph.

Round 13
2.25 Miles/Road

With a variety of corners and an uneven surface, this is a technically demanding course.
Round 14
4.048 Miles/Road

This is a road course surrounded by forest. One lap of this undulating course is over four miles long.

Road America

Round 15
1.9 Miles/Street

This street course uses the former site of the World Expo. Amid high rise construction and other signs of development, the layout of this course was greatly changed in 1998.

Vancouver
Round 16
2.238 Miles/Road

This course is located amid the beautiful rolling landscape of Monterey. This course is nicknamed the “corkscrew” because of a tight left turn followed by a right on a downward slope.

Round 17
1.68 Miles/Street

Using the city streets of Houston, this course is located on the coast of the Gulf of Mexico. Using 90-degree corners to join the straights, this is a typical example of a city street course.
Round 18
2.794 Miles/Street

This street course is set in the East Coast resort area of Australia’s Gold Coast. This is a very fast course made up of two long streets. Whether or not the player can adjust his car settings to handle the corners as well as the straights is the key here.

Round 19
2.0 Miles/Oval

Used since 1997, this oval course is designed for high speed. The course was based on the Michigan speedway so its layout should be familiar. This course is, however, a little longer and the corner bank angle a little lower.

THIS LIMITED WARRANTY IS VALID FOR U.S. AND CANADIAN SEGA DREAMCAST SOFTWARE MANUFACTURED FOR SALE IN AND PURCHASED AND OPERATED IN THE UNITED STATES AND CANADA, ONLY!

Limited Warranty
Sega of America, Inc. warrants to the original consumer purchaser that the Sega Dreamcast GD-ROM shall be free from defects in material and workmanship for a period of 90-days from the date of purchase. If a defect covered by this limited warranty occurs during this 90-day warranty period, Sega will replace the defective GD-ROM or component free of charge. This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering or any other causes not related to defective materials or workmanship. Please retain the original or a photocopy of your dated sales receipt to establish the date of purchase for in-warranty replacement.

WARRANTY REPAIRS
IF YOUR SEGA DREAMCAST GD-ROM DISK IS DEFECTIVE OR HAS BEEN DAMAGED, DO NOT RETURN IT TO SEGA. RETURN THE DISK, IN ITS ORIGINAL PACKAGING, ALONG WITH YOUR ORIGINAL SALES RECEIPT TO THE RETAILER FROM WHICH THE SOFTWARE WAS ORIGINALLY PURCHASED. Sega of America cannot offer credit or exchanges for merchandise purchased through your retail store. If you have questions about the warranty service, contact Sega Consumer Service Department at http://www.sega.com or 1-800-USA-SEGA. Instructions en français, téléphoner au: 1-800-872-7342.

OUT OF WARRANTY REPAIRS AND REPAIRS AFTER EXPIRATION OF WARRANTY
If your Sega Dreamcast GD-ROM requires repairs after the termination of the 90-day limited warranty period, you may contact Sega at the web site or 800 number listed above for instructions on receiving technical support and repair service.

LIMITATIONS ON WARRANTY
Any applicable implied warranties, including warranties of merchantability and fitness for a particular purpose, are hereby limited to 90-days from the date of purchase and are subject to the conditions set forth herein. In no event shall Sega of America, Inc., be liable for consequential or incidental damages resulting from the breach of any express or implied warranties. The provisions of this limited warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts, or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you. This warranty provides you with specific legal rights. You may have other rights which vary from state to state.

ESRB RATING
This product has been rated by the Entertainment Software Rating Board. For information about the ESRB rating, or to comment about the appropriateness of the rating, please contact the ESRB at 1-800-771-3772.
